

**Harry A. Conner** April 7, 2003 was the end of a great adventure for Harry A. Conner of Aguila Ariz. A General Motor's Apprenticeship, Korean Naval War hero, Apollo Lunar Spaceship builder, Space Shuttle Engineer and private pilot were his accomplishments that made his world better than he found it.

But Mr. Conner's greatest love was for: his wife Rita, his sons Larry and Garry, and his very much endeared sister Marjorie.

Mr. Conner put his love into actions by his great care for Kevin, Kelly, Conner, Brynn, who are the children of his heart.

He will always be a super hero to his grandsons, Curtis, Cory and Enrico.

Eagle Roost's warm fellowship and Harry Conner were one in the same and fit together perfectly.

His family is ever so grateful for the blessing that all of Aguila has been to him while he was with us and after he passed.

He will be surely missed in his hometown of Lyndonville, N.Y. which was always close to his heart.

Memorials may be made to Lyndonville Volunteer Fire Department.
